MEMORANDUM FOR: The Director of Central Intelligence

SUBJECT: Commendation for Signal Center Personnel

In a recent conversation with me you indicated your pleasure at the part played in PBSUCCESS by a number of my people, including the Signal Center personnel. You indicated that you would be pleased to sign letters of commendation if I so recommended. There were a large number of individuals who played an important part in the Project and as I did not want to trouble you by asking you to sign individual letters of commendation, I sent them out under my own signature. However, the work of the Signal Center was so outstanding and the working conditions so unpleasant, that I feel that it would be good for the morale of the Signal Center team if you would sign the attached memorandum to me, subject, "Commendation of the Signal Center."

Assistant Director for Communications
